

```
const express = require('express');

const app = express();

const PORT = 8080;

app.get('/', async (req, res) => {

  const response = await fetch('https://api.chucknorris.io/jokes/random');

  const data = await response.json();

  res.json(data);

});

app.listen(PORT, () => {

  console.log(Servidor Node.js rodando na porta ${PORT});

});
```
